

PROGRESS REPORT

ABOUT US

TRIGUNA is a non-profit organization that works towards the sustainable development of underprivileged communities in the areas of livelihood, education, healthcare, and vocational skill development.

Founded in 2022 with a vision to replicate and scale services in the areas of education, health and livelihood for disadvantaged group, TRIGUNA has been working tirelessly to provide resources and opportunities to the marginalized sections of society, enabling them to break the cycle of poverty and live a dignified life.

The organization recognizes the importance of a holistic approach to development and has developed comprehensive programs that address the multiple challenges faced by the communities it serves. The focus areas of livelihood, education, healthcare, and vocational skill development have been identified as critical elements in achieving sustainable development goals, and TRIGUNA has been working towards achieving these goals in a systematic and structured manner.

VISION

To replicate and scale services in the areas of education, health and livelihood for disadvantaged group

MISSION

To serve individuals and families in the poorest communities.

PROGRAM

Passport To Earning (P2E) is an e-learning solution to empower India's young people with relevant 21st Century Skills and abilities to thrive in school, work and life. The platform provides skilling and learning opportunities to enable new, continuous access to skilling, re-skilling, and upskilling requirements of young people across India through online training, blended learning models, and offline engagement.

The courses include Life Skills, Digital Literacy, Financial Literacy, Employability and Leadership among others. The courses are available in Hindi and English languages. Students can take these programs at home or at school (in the computer lab), and be certified by United Nations, UNICEF and P2E partners including Microsoft, Accenture and Capgemini.

CHARACTERSTICS

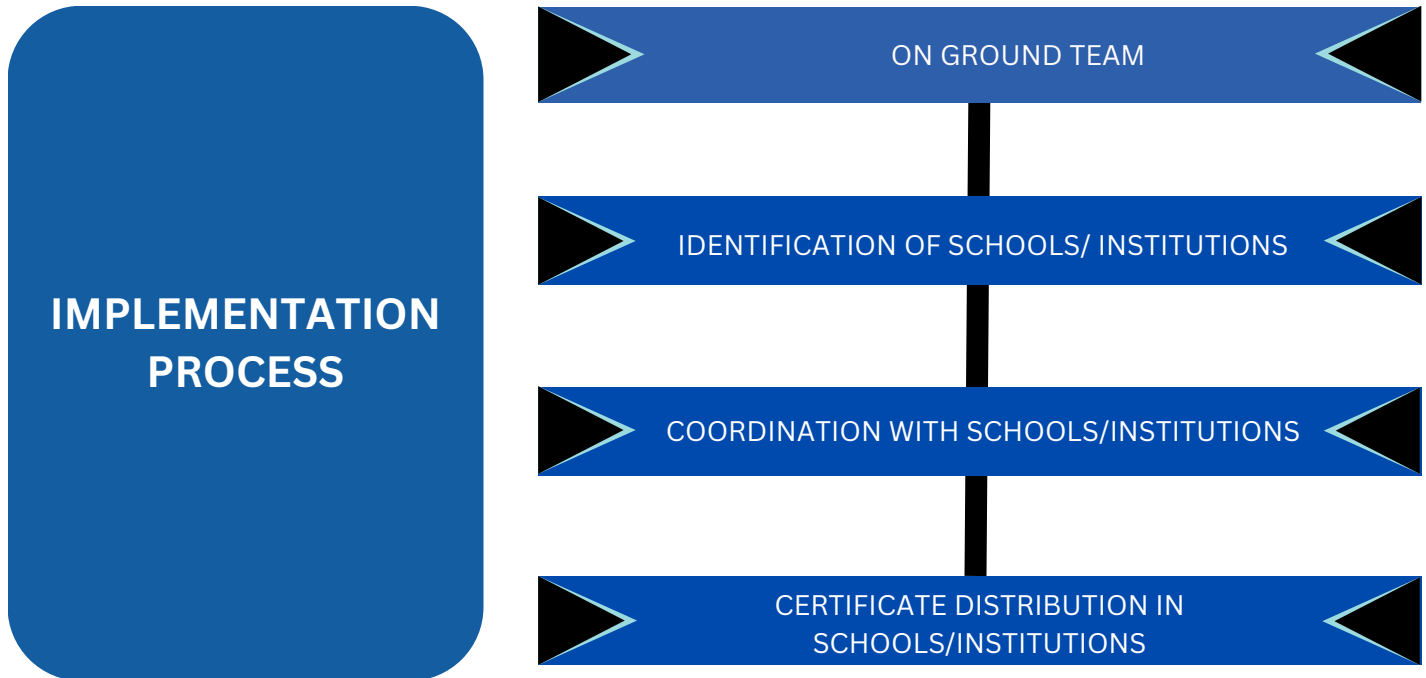

- **Content in Regional Languages**
- **Integrated Assessments**
- **Focus On Marginalized Youth,**
- **Certifications By UNICEF**
- **Flexible Learning**

OBJECTIVES

- *Creating a friendly E-Learning platform for the students of 14 to 24 years of age group.*
- *Making these courses accessible to the target population which focuses on providing 21st Century skills.*
- *Bridging the gap between the lack of relevant 21st Century skills among students and the platform to avail such skills.*
- *Providing skills focusing on the youth living in the rural or semi-urban areas*

IMPACT

This programme has had an evolutionary positive impact on private and public-school students in multiple locations of India by connecting them with an e-learning platform and providing them with an unprecedented experience of how such short online courses are beneficial and how they can gain knowledge through them.

The majority of students in urban areas attend Non-CBSE schools, and this initiative has a positive impact on them in the field of e-learning because many of them have connected themselves with such platforms for the first time in their lives, where they have encountered themselves with learning the basics about the computer in the form of Digital Productivity course.

Celebrations

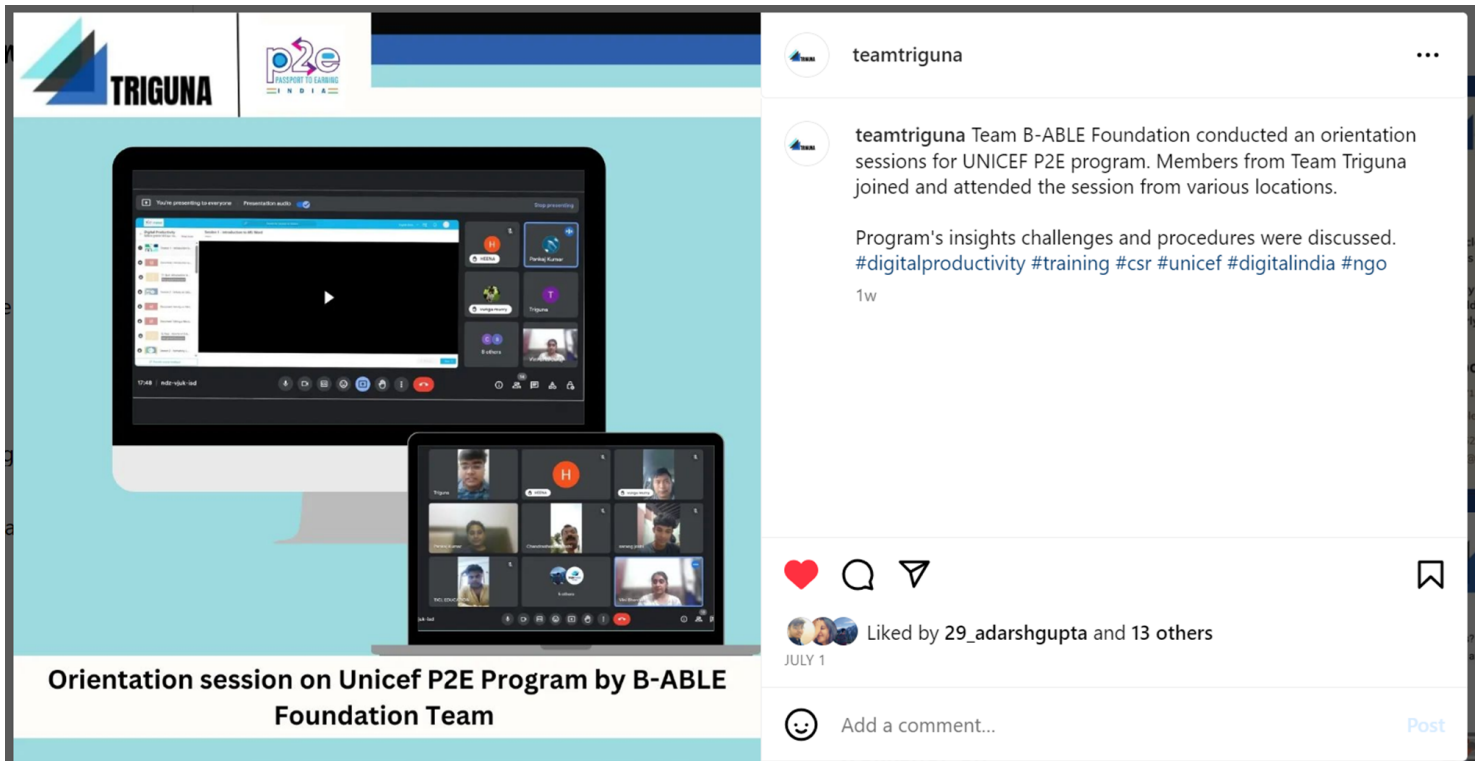

To promote environmental conservation and sustainable farming practices, our organization organized an Environment Day plantation drive and a session with local farmers. The event included the planting of tree saplings as well as the sharing of information about organic farming, water conservation, and eco-friendly practices. The initiative raised awareness, engaged the community, empowered farmers, and had a long-term impact on the environment as well as the participants.

Celebrations

A session on the fundamentals of yoga was held on the occasion of the 9th International Yoga Day. The session's goal was to introduce participants to the fundamental principles and practices of yoga, with the goal of promoting physical and mental well-being. Yoga asanas (poses), breathing techniques, and relaxation exercises were taught to participants. The session helped participants understand the holistic benefits of yoga and encouraged them to incorporate it into their daily lives for better health and inner harmony.

Workshop

PASSPORT TO EARNING PROGRAM ORIENTATION SESSION CONDUCTED BY B-ABLE FOUNDATION

An orientation session was held by B-ABLE Foundation team to familiarize participants with the program and its goals. The session provided an overview of the curriculum and emphasized its importance in developing digital skills and increasing productivity. Participants were given the opportunity to ask questions and express their concerns.

The orientation aimed to ensure the program's smooth implementation and to instill enthusiasm in participants for their digital empowerment journey.
