Education: promoting lifelong learning initiative to support skill development

Livelihood: promoting opportunities through skill training, entrepreneurship development

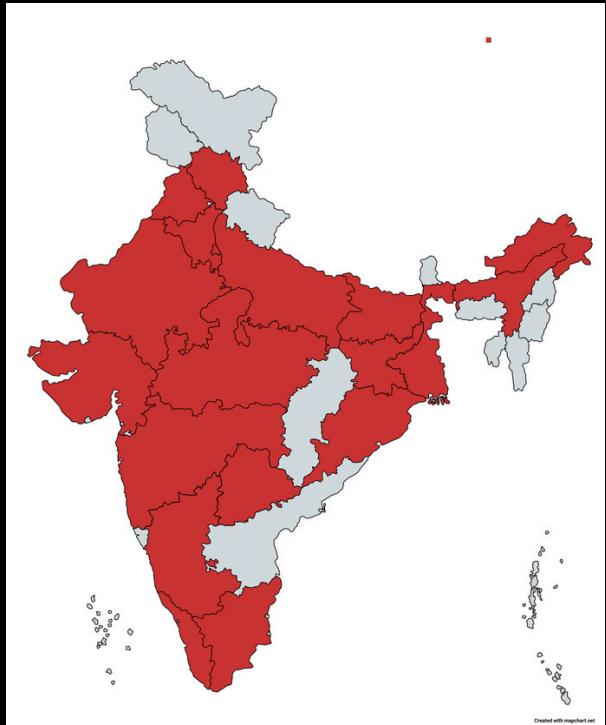

"JOINING HANDS FOR HOPE"

"TRIGUNA, established in 2022, is dedicated to scaling vital services in education, health, and livelihood for disadvantaged communities, empowering them to break the cycle of poverty and live with dignity. With a unified vision, we strive for sustainable development through education, healthcare, and vocational skill enhancement. Our mission is to uplift individuals by providing essential resources and opportunities, aligning with our vision to replicate and expand services for marginalized groups."

Statewide support initiative

"TOGETHER TOWARDS TOMORROW"

In the past year, our impactful programs have reached over 1,40,000 students nationwide, empowering them with essential digital productivity skills. From training youth in DTH Technician skills to fostering entrepreneurship among over 5,000 individuals, our initiatives have spanned across 11 states and 978 institutions.

Moreover, our Passport to Earning (P2P) program has certified 1,40,000+ young learners.

We also conducted Eye Camp provided crucial support to 291 individuals, including counseling and medication, alongside distributing 60 pairs of spectacles. Together, we're making a tangible difference in communities nationwide.

"Building Your Digital Identity: LinkedIn For Youth"

Introducing a collaborative initiative spearheaded by LinkedIn, in partnership with Aspire for Her and Team Triguna, focused on empowering youth through an online training program. This program aims to equip young individuals with essential skills to leverage LinkedIn effectively for personal and professional growth. Through comprehensive and practical guidance, participants learn to craft impactful profiles, navigate networking, job hunting, and brand building on LinkedIn. By demystifying the platform and highlighting its benefits, this program prepares youth to navigate the digital landscape confidently, fostering success in the competitive professional world.

DTH Technician training

The DTH training program, facilitated by the B_able Foundation in collaboration with CSR initiatives, targets individuals who discontinued their education at the 10th grade or between 10th and 12th grades. The program focuses on training participants to service Tata Digital technologies. Upon completion of the training, participants are assessed and offered employment opportunities based on their demonstrated skills and capabilities. This initiative not only provides vital technical skills but also fosters job readiness, aiming to enhance participants' employability in the digital services sector.

Empowering Skills, Elevating Careers

The Quick Service Restaurant (QSR) upskilling and job provision project by Jubilant Bharti represents a dynamic effort to empower youth and address unemployment challenges. Through this initiative, Jubilant Bharti aims to equip young individuals with essential skills needed to thrive in the QSR industry, thereby enhancing their employability. Team Triguna offering training programs tailored to the demands of the sector, the project not only provides avenues for career advancement but also meets the growing staffing needs. Through this dual approach of skill development and job creation, the project serves as a catalyst for socio-economic empowerment, fostering a skilled workforce and contributing to community development.
